

# UNLIMITED COMBINATIONS: HEI-SHAKE SHAKERS

MADE IN  
GERMANY

The average operational lifespan of 10 years is backed by a 3 year warranty and makes your purchase a worthwhile investment.

## Titramax

Shaking temperature controlled - Working efficiently - Saving space

Integration in the modular incubation system 1000 for flexible, temperature controlled applications

Strong hold of the multi-well plates on the anti-slip rubber mat even during high speeds

Easy removal of the multi-well plates due to recess and spacings in the rubber mat

The overheat protection switches off the device in case of emergency – this is important for the temporally unlimited continuous use

The combination of a 1.5 mm shaker orbit and the high speeds until 1,350 rpm ensures the mixing of samples in small cavities
