

### EVOLVE – Manual pipettes

Adjust volumes more than 10 times faster

Single channel	
0.2	- 2 $\mu$ l
1	- 10 $\mu$ l
2	- 20 $\mu$ l
10	- 100 $\mu$ l
20	- 200 $\mu$ l
100	- 1,000 $\mu$ l
500	- 5,000 $\mu$ l

8, 12 and 16 channel	
1	- 10 $\mu$ l (8, 12, 16)
5	- 50 $\mu$ l (8, 12, 16)
10	- 100 $\mu$ l (8, 12, 16)
20	- 200 $\mu$ l (8, 12)
100	- 1,250 $\mu$ l (8, 12)

### VIAFLO – Electronic pipettes

GRIPTIPS® pipette tips will never loosen, leak or fall off

Single channel	
0.5	- 12.5 $\mu$ l
2	- 50 $\mu$ l
5	- 125 $\mu$ l
10	- 300 $\mu$ l
50	- 1,250 $\mu$ l
100	- 5,000 $\mu$ l

  

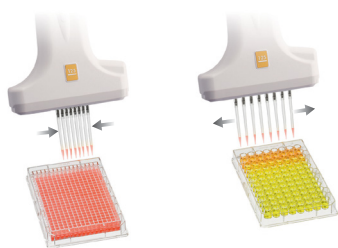

8, 12 and 16 channel	
0.5	- 12.5 $\mu$ l (8, 12, 16)
2	- 50 $\mu$ l (8, 12, 16)
5	- 125 $\mu$ l (8, 12, 16)
10	- 300 $\mu$ l (8, 12)
50	- 1,250 $\mu$ l (8, 12)

### VOYAGER – Electronic tip spacing pipettes

Transferring samples between different labware

4, 6, 8 and 12 channel	
0.5	- 12.5 $\mu$ l (8, 12)
2	- 50 $\mu$ l (8, 12)
5	- 125 $\mu$ l (8, 12)
10	- 300 $\mu$ l (4, 6, 8)
50	- 1,250 $\mu$ l (4, 6, 8)

### MINI 96, VIAFLO 96 and VIAFLO 384 – Electronic pipettes

Significant increase in pipetting productivity, speed and reproducibility

MINI 96	
96 channels	
0.5	- 12.5 $\mu$ l
5	- 125 $\mu$ l
10	- 300 $\mu$ l
50	- 1,250 $\mu$ l

VIAFLO 96 and VIAFLO 384	
24, 96 and 384 channels	
0.5	- 12.5 $\mu$ l (96, 384)
2	- 50 $\mu$ l (96, 384)
5	- 125 $\mu$ l (96, 384)
10	- 300 $\mu$ l (24, 96)
50	- 1,250 $\mu$ l (24, 96)

### ASSIST and ASSIST PLUS – Pipetting robots

Automate INTEGRA's VIAFLO and VOYAGER pipettes and the D-ONE single channel pipetting modules\*

Applications:

- Serial dilutions
- Plate fillings
- Reagent additions
- Sample reformatting\*
- Hit picking\*
- Normalization\*
- Master mix\*

ASSIST

D-ONE

Single channel pipetting module for the ASSIST PLUS

ASSIST PLUS

\*Only available for the ASSIST PLUS

### MAG, HEATMAG, COLDPLATE and BIOSHAKE

Magnetic separation, heating, cooling and shaking modules

**MAG**

Automated magnetic bead collection and capture

**HEATMAG**

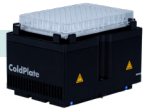

Combined automatic magnetic bead collection and heating function

Compatible with INTEGRA's benchtop pipetting platforms

**COLDPLATE**

Precise and uniform temperature control from 0 to 99 °C

**BIOSHAKE**

Precise shaking up to 3,000 rpm and accurate heating

### WELLJET – Reagent dispenser and dispenser stacker

Low cost, fast and precise bulk reagent dispensing

**Dispenser**

Rapid filling of 6 to 1,536 well plates with volumes of 0.5 µl to 10 ml

**Dispenser stacker**

For hands-free filling of non-lidded and lidded well plates

### PIPETBOY GENIUS and PIPETBOY acu 2 – Serological pipet controllers

Precise and efficient serological pipetting

**PIPETBOY GENIUS**

Speed up your workflow by pressing one button to dispense a defined aliquot volume\*

**PIPETBOY acu 2**

Fits 1 ml to 100 ml serological pipets

**INTEGRA serological pipets**

INTEGRA serological pipets are compatible with every pipet controller on the market

\*In combination with INTEGRA serological pipets

### VACUSAFE, VACUBOY, VACUSIP and DOSE IT

Liquid aspiration, collection, disposal and pump systems

**VACUSAFE and VACUBOY**

Safe aspiration system with 2 and 4 l bottles

**VACUSIP**

Portable aspiration system with 500 ml bottle

**DOSE IT**

Easy to operate peristaltic pump

### Eco-friendly reservoirs, smart tips

Everything you need for productive pipetting from 1 to 384 channels

Wide range of reservoirs with reusable bases and disposable inserts

GRIP TIPS never loosen, leak or fall off
